

## Iron Gates

### Verse 1:

F#m E Dbm D  
Emerald shores breathe waves that break beneath my naked feet  
F#m E Dbm D  
I find a seat along the ashen coast and lose the ones who I love most  
F#m E A Dbm  
Something lies beyond the iron gates  
F#m E A Dbm  
Look around you'll find it all awaits For those who  
Em7  
Sit patiently  
D  
Wait their turn

### Chorus:

A Em D C  
With so much to learn I know nothing at all  
C G B7 Em  
After all these years the curtain finally begins to fall  
F C G Am  
The lights fade and all I've made withers away  
F C E G  
Goodbye life perhaps we'll meet again another day  
  
A Em D C  
With so much to feel I feel nothing at all  
C G B7 Em  
Told to stand tall but I would rather crawl  
F C G Am  
The night comes and all the world walks along to the beat of the  
F C E G  
Quiet drums that never were heard before

### Verse 2:

F#m E Dbm D  
Waking before the sun arrives ending my life before it has  
F#m E Dbm D  
Begun - I walk around and find I might not be the only one who knows  
F#m E A Dbm  
Something lies beyond the iron gates

F#m                                    E            A                                    Dbm  
          Look around you'll find it all awaits            For those who  
Em7  
Never cry  
D  
Choose not to die

**Repeat chorus**

**Then repeat chorus with guitar solo until fade out**
