

On my Way

Tin Ceric

Like a lot of the people, you
Find on the street
I can do without
All the things I don't really need

Spend my life on a highway
'Cause anywhere feels like home
Don't think I'll stop soon
'Cause it's better than being alone

I got my entertainment
Right here on the road
And if I ever cried
I guess it never, showed

I don't cause any problems
And I, never caused any pain
Can you give me a reason
Why I shouldn't remain

On my way
 To the edge of the Earth

I said, save the lecture for someone
Who has the time to wait
I've been meaning to get to
Nowhere and I'm already late

You can see how the time flies
When, everything lies ahead
Don't want your opinion
Like I, already said

Yeah, I'll follow my dream instead, of yours
You haven't even noticed these open doors
I'm sorry to say,
I'll be on my way

Been living on my watch
But I, don't keep track of time
And I still have a wallet
But, not a single dime

I wouldn't call it dangerous
But I, wouldn't call it secure
Life is not a disease
But it sure has a cure

Yeah, I'll follow my dream instead, of yours
You haven't even noticed these open doors
I'm sorry to say,
I'll be on my way
